PROJECTS

Travel X:(Group project)

Aug 2019 – Dec 2019

It is a crowdsourcing portal: we made web application that tells the actual cost of traveling via different type of vehicles. we also added google Map for tracking the way of traveling.

Technology used: React JS, Django, Rest.

ATM-Machine:

Aug 2020 – Dec 2020

It a program written in java has almost similar functionality like Automated Teller Machine (ATM). I have used concepts of oops.

Technology used: Java core, oops.

E-Commerce web application:

Jan 2021 – May 2021)

It is web application similar like Amazon, Flipkart. Having functionality for both customers and for the seller friendly.

Technology used: React JS, Node JS, MongoDB(as a database).

We also integrated Payment gateway for the payment.
